## COLLECTORS.

"The pursuit and study of the Fine Arts in their various branches, have been a source of constant enjoyment to me in the intervals of business, and often of great solace and relief at trying periods, and this alone would be a pleadable indemnification for my investments, should they fail to be commercially reproductive. It is said that Collectors usually have long lives, and I cannot help feeling that the cheerful exercise of the mind and body which belongs to the pursuit, warrants the assertion; and I hope in due time to say, *probatum est.*

# THE COIN COLLECTOR'S JOURNAL.

SPLENDIDLY ILLUSTRATED.

A 16-PAGE MONTHLY. **\$1.00 PER YEAR. POST FREE.**

In forwarding to our subscribers THE COIN COLLECTOR'S JOURNAL for January, 1878, at the commencement of the third volume, we would take the opportunity of thanking our patrons for past favors, and urge them to continued exertions to increase the circulation of the Journal. As it is the largest numismatic monthly published in the United States, and as it has now attained a more extensive circulation than any other paper devoted to the interests of coin collectors, we think it is for the interest and advantage of subscribers to do something to increase its influence.

We would remind our friends that by increasing the circulation of the Journal, the number of collectors will doubtless be much increased, and, as the number of coins is limited, the additional demand will greatly enhance the value of all collections.

The publishers have never expected to realize any profit from the subscription list; all that they hope for is to make the C. C. J. a self-sustaining means of communication for coin collectors, and therefore feel justified in looking to those benefited by it to do something to add to its usefulness in the future.

We give annexed a few reasons why every coin collector should become a subscriber: For prices realized at every **Auction Sale of Coins** in the United States during the last two years—see *The Coin Collector's Journal*.

For the fullest illustrated description of the **Centennial Medals**—see *The Coin Collector's Journal*.

For a concise history of the **Colonial Coins**, beautifully illustrated—see *The Coin Collector's Journal*.

For fine engravings of **Old German Dollars**, with interesting details of their history—see *The Coin Collector's Journal*.

For a complete illustrated description of all the **Copper Money** issued in England—see *The Coin Collector's Journal*.

For fine illustrations of **Old Roman Coins**—see *The Coin Collector's Journal*.

For illustrations of **Chinese Cash**, with translations of all the Chinese characters found on the coins for the last two hundred years—see *The Coin Collector's Journal*.

For good illustrated description of **Old English Silver Coin**—see *The Coin Collector's Journal*.

For fine illustrations of **Modern Foreign Copper Coins**—see *The Coin Collector's Journal*.

For a full history of the **Byzantine Coins**—see *The Coin Collector's Journal*.

For illustrated descriptive articles on **French Colonial Copper Coins**—see *The Coin Collector's Journal*.

For a full description of all **United States Fractional Currency**—see *The Coin Collector's Journal*.

For a complete chronological list of all the **Roman Emperors**—see *The Coin Collector's Journal*.

For a fine engraving of the magnificent **Canadian Confederation Medal**—see *The Coin Collector's Journal*.

For **advice to Collectors** regarding the **most desirable series** to collect—see *The Coin Collector's Journal*.

For **answer to any question** you may desire to put to the editor—see *The Coin Collector's Journal*.

For **instructions regarding Cleaning Coins**—see *The Coin Collector's Journal*.

For full description of all **United States Cents**, beautifully illustrated—see *The Coin Collector's Journal*.

For **anything and everything connected with Coin Collecting**—see *The Coin Collector's Journal*, and let the publishers see your dollars at once.

The First and Second Volumes, beautifully bound in cloth, can now be had of the Publishers. **PRICE, \$1.50 EACH.** Single Copies, 15c. each. A small quantity of back numbers still in stock.

# COIN CABINETS.

Messrs. SCOTT & COMPANY are pleased to announce to Collectors that they are manufacturing COIN CABINETS of the following sizes and styles:

No. 1 size,  $24\frac{1}{2} \times 17\frac{1}{2}$ , eighteen drawers each  $15 \times 9$  inches, and from 3-8 to 6-8 inches deep, two doors with lock and key, polished black walnut; very handsome and durable. Price \$20.00. Boxing 50c., and shipping extra.

No. 2, size  $14\frac{3}{4} \times 15\frac{1}{2}$ , twelve drawers each  $13 \times 7$ ; 5-16 in. deep, door with lock and key, polished black walnut, very handsome and durable. Price \$10.00. Boxing, &c., 50c. extra.

These are made by first-class workmen, with the aid of fine machinery, thus producing a cabinet which is both strong and elegant, the price being at least 50 per cent. less than the cost of the same piece of furniture when made for private parties. Any desired style made to order, the price being about a half more for the same amount of work when made singly.

# New Publications, MAY, 1879.

Messrs. SCOTT & COMPANY

*Take great pleasure in announcing to the public that they have issued this day a work of great value to all interested in the history of their country, entitled*

## **“Colonial Continental Confederate Currency,**

*“Their present market value.*

*“To which is added a complete Price List of  
U. S. Fractional Currency.*

**Price - - - - 50 Cents.**

It would be impossible at this date to claim that the list is perfect, but great care has been taken in its preparation, and every known variety of all the different kinds of paper money which have circulated in this country, has been tabulated according to date, so that any note is easily found, while the numerous full sized illustrations of Colonial and Continental money give material aid, likewise add interest to the book for the general reader. As an instance of its completeness we may call attention to the fact that 74 pieces of U. S. Fractional Currency are catalogued, while the highest number heretofore chronicled was only 48.

Besides being valuable as a check list of all uncurrent money issued by authority in this country, it is a comprehensive price list of Messrs. Scott & Company's large stock, the prices of which have been placed as low as the great and increasing demand for these interesting mementoes of our country's struggles for existence will admit of.

A REVISED LIST

OF ALL

## Postage Stamps and Stamped Envelopes

This is the only work of the kind ever published in America, and in the short space of two months has become the standard of all English-speaking stamp collectors. It contains an accurate list of every postage stamp ever issued, minutely describing every variety of color, water-mark and paper, together with all the minor details concerning the different dies of the same stamp. It is fully illustrated with about fifteen hundred engravings, and besides being the latest is the most accurate work of the kind ever printed. Numerous notes explain every doubtful point in Philately, and give many interesting details concerning the causes which led to the issue or suppression of noted stamps. Mr. Coster's valuable monograph on the United States locals is added entire, forming a work which no collector who has outgrown the boy period of pasting stamps in a copy book can afford to be without. It is not a price list or a dealer's advertisement in any sense of the word.

Large 8vo, 400 pages, - - - Cloth, \$2.50.

Paper, Stitched, - \$1.00; Post Free, - \$1.10.

Ship sailing to right in center, DAMUS PETIMUS above, QUE VICISSIM below, in outer lined frame inscribed, BRITISH above, GUIANA below, POSTAGE on left, FOUR CENTS on right side. Black imp., large obl.

4 cents, magenta, dark blue.

NOTE.—These stamps were type set in the colony, for use temporarily, each one being authenticated by the postmaster's initials, and as a further precaution were not sold to the public, but affixed to the letters by the post-office clerks. They are among the rarest stamps known.

### CRITIQUES.

"The work is profusely illustrated, and forms a valuable book of reference for postage stamp collectors."—*The N. Y. Daily Graphic*, June 26.

"Will be highly appreciated by philatelists the world over. It is the first complete catalogue of all stamps ever issued that has been made for collectors, and if it were a catalogue only, it would be of great value, but it is much more. The 400 broad pages contain the full history of every issue of every government, and a full description of every stamp, both government and private. Fifteen hundred engravings illustrate the text, and a complete index makes the information readily accessible."—*The N. Y. World*, June 21.

"The book is decidedly remarkable for the industry and patience displayed in the compilation of facts concerning postage stamps and stamped envelopes all over the world. To those who have paid no special attention to this curious study this catalogue will be a revelation, for though there are over one thousand five hundred fac-similes of stamps scattered over the 410 pages contained between its covers, they form only a tithe of the whole, for the catalogue describes several thousand varieties. Turning over the leaves of Mr. Scott's catalogue we are compelled to admire the system he has adopted, while realizing the time and study he must have devoted to his subject. The result is a manual that must be a great help to old collectors and indispensable to beginners. Clearly printed in large type and handsomely bound, the book will undoubtedly become a standard work of reference."—*N. Y. Herald*, June 30th, 1879.

THE  
COINAGES OF THE WORLD,  
ANCIENT AND MODERN.

This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quarto, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

CRITIQUES.

---

*The New York Times* of December 27th, says:

“What every student of Coinages—not the mere collector of old coins—wants to know.”

*The New York World* of November 27th, says:

“Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference.”

*The New York Evening Post* of November 29th, says:

“A work of great interest to numismatists and collectors of coins. \* \* \* The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries.”

*The New York Daily Graphic* of December 23d, says:

“Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference.”

*The American Journal of Numismatics* of January 1st, says:

“This is an octavo volume of 306 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quarto of the old writers, which has yet appeared.”

*The Coin Collector’s Journal* of January 1st, says:

“This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of *Ægina*, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from *Gracia Magna* to Rome, and so down through the Byzantine Empire to Mediaeval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house.”

## AN OLD COUNTRY AMUSEMENT.

If there are any of our readers who have never seen a miniature theatre performed by an intelligent boy they have missed one of the prettiest sights imaginable, and if they have any boy friends in whose welfare they are interested, they cannot do better than make him a present of one of these instructive toys. They are made in three sizes, each perfect in itself, but designed for different ages. In the first, designated miniature, the scenes are the size of the engraving given above; are printed on cards, beautifully colored, and full instructions for performing accompanying each one. The price is 10 cents, or with characters, etc., already cut out, with wooden stage, and packed in box, 50 cents. They can be obtained in the principal cities, or will be sent by express on receipt of price. The next size, or that known as Seltza, is four times as large and the coloring much finer. These cost 50 cents, or with one of the patent folding wooden stages, two dollars and a half.

"Last year the writer was invited to attend a performance of the play of Cinderella, which was to be given by the son of our pastor. On entering the room we found that the sliding doors dividing the parlors had been drawn together leaving just sufficient space for the proscenium of the stage to stand in the front room, a table cloth being hung above and below, so that nothing could be seen on that side but the front of the stage; four rows of eight chairs were arranged in a semi-circle before it. These were occupied by the friends of the family, the smaller children being placed in the front seats, while the older ones remained at the back, where they could see over the others' heads. The gas being turned low in the room, the little oil foot-lights on the mimic stage burnt bright, and threw light on the curtain, which was raised at the sound of a little bell. The performance then commenced, our young friend behind the stage in the other room, and his sister, reading the speeches of the supposed performers, and pushing the characters on the stage with wires at the proper time. With what a burst of applause the entry of the Fairy Queen was received when she was lowered to the stage by a hair, and the young lady read the tale of the sufferings of poor Cinderella. Then the scene changed to the cave of the Kobolds, and the little card characters were seen in the performance of the work necessary for getting the fire ready to make the little glass slippers. This is finally accomplished while a chant is being sung back of stage; but we have not time to recount all of the changes of scene, from the kitchen to the ballroom, and from there to the castle court-yard, where the gorgeous equipage of Cinderella is suddenly transformed to the big pumpkin, and the poor frightened mice, rats and lizards. We left as pleased with our evening's entertainment as if we had attended a concert conducted by grown people."

• The large or "mammoth" size is the same as the Seltzs, except in dimension, the scenes being 23 inches high by 28 inches long, while the stage, being so much larger, there is, of course, room for more complicated effects, such as real painted act drops and curtains that roll up from the bottom. The plays for these can be had for a dollar and a half, or the large wooden stage, with two curtains and play complete, for ten dollars.

Without counting the endless pleasure to be derived from acting or witnessing the performance of **Seltz's American Boys' Theatre**, the fitting up, mounting and performing these Plays will be found to give more pleasure and profit for the money than the same amount expended in any other way. All the marvelous scenic effects of the modern stage can be successfully imitated, by any boy of ordinary ability, on these miniature stages, by the exercise of a little study and patience. They have been proved of incalculable benefit in developing a boy's talent, in the various faculties called into play. His mechanical invention is brought out in constructing his theatre; his artistic genius is improved in carefully coloring the characters and scenery, and his elocution perfected in reading the speeches of the different actors.

Scott & Co. would caution the public against purchasing worthless imitations, as the Plays of **SELTZ'S AMERICAN BOYS' THEATRE** are the only miniature theatricals ever published, giving full directions for working, &c. Every piece of this admirable series is put together and tested by professionals before being issued to the public, insuring the correct working of every piece.
